hereunder. Customer acknowledges that use of third party technology and/or services not already licensed or purchased by Customer may require additional licenses and fee(s) that must be obtained separately by the Customer from the specific third-party provider of such applications and/or services.

Without limiting Subsection (b) above, if Customer instructs Paapri to download or use any open source or other software in connection with Professional Services, Customer hereby appoints Paapri as an agent to perform such download for Customer (including accepting any click-through terms). Customer acknowledges that any such terms will be binding directly on Customer and that Customer (not Paapri) is solely responsible for compliance with such terms.

Consistent Processes: Customer is responsible for ensuring that common, consistent functional processes exist across the organization; including parent and all subsidiary companies (e.g. there will be one common Order to Cash process across the entire organization).

Future Product Release: This SOW does not include time for management of the release process, analysis or implementation of functions and features that are not available within the current general release of the Service.

Technical Customizations: If technical services are incorporated in this SOW, the functionality outlined as technical services are general requirements and do not represent a technical design specification. Definition of complete, detailed requirements will be confirmed prior to development. Any resulting modifications to the custom code functionality, such as naming conventions, increase in forms or fields, or workflow processes, are outside the scope of this SOW.

SuiteCloud™: SuiteCloud™ is the technology toolkit for customization, verticalization, and business process automation within NetSuite Business Operating System (BOS) platform. Any SuiteCloud customization requirements not identified in this SOW under the Customization sections and discovered during the implementation process will be subject to Change Order, priced according to complexity, and the change management process will be followed. Any changes to the business processes supported by the SuiteCloud code or to the level of functionality supplied will be subject to additional fees under a separate SOW or Change Order. In the event that Paapri is required to create certain standard development tools, client-side and/or server-side SuiteScripts, and/or standard modules and routines for processing, developing and/or creating any deliverables under this SOW ("Tool(s)"), NetSuite retains all right, title and interest in and to such Tool(s) and no license to such Tool(s) is granted hereunder.

Integration/Web Services: Except as expressly set forth herein, integration, including any SuiteScripting to support integration efforts, is not included in this SOW. In the event that requirements surface for Integration/Web Services functionality that are not outlined in the Integration/Web Services section of this document, a separate SOW will be developed, and the change management process will be followed. In the event that Paapri coordination of a third-party integration vendor is required and agreed to by Paapri, Paapri will regularly communicate project status with the said third party, including key milestones, dependencies, and risks.

Future deployment within these 12 months is not applicable to any modules that have configuration done during the initial deployment stage, and changes or reconfiguration to existing processes shall be subject to an additional cost.

Timeliness of Responses: Customer is responsible for acknowledging and responding to documents relating to this Project. These documents could be requirements documents, escalation issues or end-of-project notices. Some documents will require Customer's signature / e-signature before Paapri can continue with the implementation and Customer is responsible for responding in a timely and collaborative fashion.

CERTAIN STATES AND/OR JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, IN WHICH CASE SUCH DAMAGES SHALL BE SUBJECT TO THE LIMITATIONS IN THIS SECTION. NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS SECTION, NEITHER PARTY SHALL BE LIABLE TO THE OTHER PARTY TO THE EXTENT SUCH LIABILITY WOULD NOT HAVE OCCURRED BUT FOR THE OTHER PARTY'S FAILURE TO COMPLY WITH THE TERMS OF THIS AGREEMENT OR THE APPLICABLE SOW. 11. Governing Law and Jurisdiction. No other act, document, usage or custom shall be deemed to amend or modify this PSA unless agreed to in writing signed by a duly authorized representative of both parties. In the event of any inconsistency or conflict between the terms of this PSA, and an SOW, the terms of the SOW shall control with regards to the project described therein.
- 16 **General Provisions.** If any provision is held by a court of competent jurisdiction to be contrary to law, such provision shall be eliminated or limited to the minimum extent necessary so that this PSA shall otherwise remain in full force and effect.
